Dear Mr Wright,

Thank you for your inquiry into leased access time on our system. The Duluth system currently consists of 58 active channels, therefore, the leased access set-aside capacity of the system is nine channels. The system currently carries two channels of qualified educational programming, leaving seven available channels. Enclosed for your review are the following:

1. Full-time and Part-time leased access rates.
The rates enclosed assume you would program a basic cable service, not a subscription based service.
2. Rates for technical and studio costs.
3. Channel Lease Application.
4. Channel Lease Agreement.

Please review the enclosed information and if you remain interested in leased access carriage on our system, fill out the application and return it to us. If carriage is available in accordance with your request, we will finalize the contract and send it to you for signature.

I have attempted to respond to your request in as timely a manner as possible. As you may know the new rules were only recently published. It is my understanding however that the seven business day requirement is not approved by the O.M.B. I believe that this response is in compliance with all reporting requirements at this time.

Please call me if you have any questions regarding this information.

Sincerely

Michael McPhee
